

Chef Web Application Development Plan and Estimation -30-01-2024						
S.No	Role	Module	Sub Module	Details	Estimated Hours	
1	Customer	Authentication Module	Register	Register a new customer API and Integration	5	
2		Common Module	Login and Logout	Login API and Integration	8	
3		Search Module	Search Chefs	Search for chefs by name or other criteria APIs and Integration	20	
4			Search Dishes	Search for dishes by name or other criteria APIs and Integration	10	
5		Chef	Chef Details	Retrieve details of a specific chef and Integration	8	
6			Chef Menu	Retrieve the menu of a specific chef and Integration	6	
7		Dish	Dish Details	Retrieve and view details of a specific dish details API and Integration	6	
8			Cart	Add to cart APIs and Integration	10	
9			View Cart	View Cart details APIs and Integration	6	
10			Place Order	Checkout screen and place order and payment process APIs and Integration	15	
11		Order Module	Order Details	Retrieve details of a specific order APIs and Integration	4	
12			Customer Orders	Retrieve all orders placed by a specific customer APIs and Integration	5	
13			Cancel Order	cancel order and update status APIs and Integration	3	
14			Track Order	track the order status APIs and Integration	3	
15		Feedback	Add Feedbacks	Add new feedbacks APIs and Integration	5	
16			List Feedbacks in each dish	list all feedbacks under dish and chef APIs and Integration	10	
17		Update Order	Update Order Status (Chef/Admin)	Update Order Status ad show status to customer APIs and Integration	8	
18		Customer Profile Module	Profile Details	Retrieve details of a specific customer's profile APIs and Integration	3	
19			Update Profile	Update details of a specific customer's profile APIs and Integration	3	
20		Blog Module	All Blogs	Get a list of all blogs APIs and Integration	6	
21	Blog Details		Get details of a specific blog APIs and Integration	6		
22	Chef	Notification	Get Notification	Get notifications for a specific user APIs and Integration	9	
23		Authentication Module	Registration	Register a new chef APIs and Integration	10	
24		Menu (Dish)	Add New Dish	Chef add the new Dish in Menu APIs and Integration	3	
25			View Dish	View specific Dish Details APIs and Integration	3	
26			update Dish	Update Dish details and pricing APIs and Integration	3	
27			Delete Dish	Delete the added dish APIs and Integration	2	
28		Account	Chef Account (CRUD)	Get account details of a chef APIs and Integration	4	
29			Update Personal Info and documents	Update personal info of a chef. APIs and Integration	12	
30		Orders	Manage Orders (RU)	View,Update Status APIs and Integration	7	
31		Feedbacks	View Feedbacks (RV)	Chef can view all the feedback APIs and Integration	8	
32		Admin	User Management	Application User(CRUD)	Create,Read,Update,Delete application User APIs and Integration	15
33			Chef Management	List Chefs	Retrieve a list of all chefs APIs and Integration	3
34	View and Approve Chef Registration			Approve registration for a specific chef APIs and Integration	6	
35	Reject Chef Registration			Reject registration for a specific chef APIs and Integration	4	
36	Disable Chef Account			Disable the account of a specific chef APIs and Integration	3	
37	Dish Management		Update Chef Badge	Set Premium/Grade Batch and show in chef profile APIs and Integration	4	
38			View Dish	View All users Dish with filter options (based on chef) APIs and Integration	3	
39	Order Management		Delete Dish	Admin can Delete any Dish based on Feedback APIs and Integration	3	
40			Manage Orders(CRUD)	Admin can Create,Update,Delete any Orders APIs and Integration	15	
41	Order Transaction Management		List Transactions	Retrieve a list of all order transactions APIs and Integration	6	
42			Transaction Details	Retrieve details of a specific order transaction APIs and Integration	4	
43			Update Transaction Status	Update the status of a specific order transaction APIs and Integration	3	
44			Refund Transaction	Refund a specific order transaction APIs and Integration	6	
45	Feedbacks		Cancel Transaction	Cancel a specific order transaction	4	
46			Manage Feedbacks (CRUD)	Create,Read,Update,Delete Feedbacks (Dish and Chef)	8	
47	Content Management (Blogs)		Manage Blogs (CRUD)	Create,Read,Update,Delete Blogs	20	
48	Reports		Various Reports		50	
49	UI		Admin Panel	(For Chef and Admin)	Responsive Admin Panel	80
50	Testing	Manual Testing		Testing Application	40	
51	Deployment	PROD Deployment	Deploy the Application in Server	Deployment	32	
				Total Approximate Estimated Hours	520
